

Notification Preferences

Canvas includes a set of default notification preferences you can receive for your courses. Notifications are sent to Canvas contact methods as specified in your account. However, you can change the default settings by setting your own notification preferences.

Notifications are sent as one of four delivery types: Send Right Away, Daily Summary, Weekly Summary, or Do Not Send. If you change a setting, the change is made immediately to your account.

- Notifications set to **Send Right Away** may be *delayed by one hour*. Depending on the feature, notifications may be temporarily held in case an instructor makes additional changes, which prevents users from being spammed by multiple notifications in a short amount of time.
- **Weekly Summary** notifications vary among users. The date and time of your weekly notifications are posted at the bottom of the notifications page.
- Twitter and SMS notifications can only be set to Send Right Away or Do Not Send.

Notification Users

All active users can set preferences for all notifications shown in this document unless otherwise indicated. *Users with concluded enrollments do not receive notifications, even if their concluded enrollment is in an active course.*

- Notification preferences only apply to you; they are not used to control how course updates are sent to other users. (The only exception is the Course Content notification.)
- Notification settings apply to all of your courses; currently you cannot change settings for individual courses.

Users who have an Observer role within a course currently only receive notifications for actions related to the following preferences:

- | | |
|----------------------|------------------------------|
| • Due Date | • Conversation Message |
| • Grading Policies | • Conversation Created By Me |
| • Course Content | • Calendar |
| • Announcement | • Appointment Signups |
| • Grading | • Appointment Cancellations |
| • Invitation | • Student Appointment Signup |
| • Submission Comment | |

Notification Descriptions

This document outlines each notification, the default setting, the behavior(s) that trigger the notification, and the location of the notification. Notification locations can be any contact method set in your profile page with a notification preference, the Course Activity Stream, or both.

Note: Notification Preferences do not affect notifications in the Course Activity Stream. Updates in the Course Activity Stream cannot be disabled, but users can choose not to use the Course Activity Stream where applicable, such as in the Dashboard (New Canvas UI) or Course Home Page.

Notification Whitelist

For email whitelist purposes, notifications will be sent from an email address ending in `instructure.com`. In most cases, whitelisting the Instructure domain is all that is required.

Several email headers show the sender details that could be used to supplement or enhance a filter that is generating bounced notifications. Canvas uses the following technologies:

- SPF (Sender Policy Framework) allows us to specify which hosts are allowed to send mail from a given domain by adding SPF records in our DNS record. Mail servers along the way can check DNS for an SPF record to verify a message is being sent by a sanctioned host.
- A DKIM (DomainKeys Identified Mail) signature lets us sign mail with a private key, and your server validates the signature, retrieving our public key via DNS.

If required, whitelists can also be created by Internet Protocol (IP). However, this method is not recommended as the list of valid IP addresses changes periodically and requires maintenance. For a complete list of current IP addresses, please contact your Customer Success Manager and/or Implementation Consultant for assistance.

Course Activities

Due Date

Description	Assignment due date change. A user who creates an assignment, quiz, or discussion will receive a notification for this action.
Default	Weekly

Notification Trigger	Notification Preference	Course Activity Stream
New Graded Assignment Created	✓	✓
New Graded Quiz or Survey Created	✓	✓
New Graded Discussion Created	✓	✓
Assignment Changed from Non-Graded to Graded	✓	✓

[^] = Email notifications for these actions will be delayed, even if the user has set their notification preferences for emails to be sent right away.

Files

Description	<p>New file added to your course. Canvas will only notify you of new files in a course once they have been uploaded. Notifications will not be sent to the user who uploads the file.</p> <p>If an Instructor disables the Files tab within a course, students will not receive this notification.</p>
Default	Do Not Send

Notification Trigger	Notification Preference	Course Activity Stream
New File Added to Course [^]	✓	✗

Announcement

Description	<p>New announcement in your course or group.</p> <p>Instructors, TAs, and other custom instructor roles can receive notifications for course groups without being added directly to a group. To receive a notification, they must be enrolled in the course and enable the Announcement notification preference.</p>
Default	Right Away

Notification Trigger	Notification Preference	Course Activity Stream
New Announcement Created	✓	✓

[^] = Email notifications for these actions will be delayed, even if the user has set their notification preferences for emails to be sent right away.

Announcement Created By You

Description	<p>You can see what announcements you have sent in a course or group. Also, if you allow replies, a notification will be sent for announcement replies.</p> <p>Instructors, TAs, and other custom instructor roles can receive notifications for course groups without being added directly to a group. To receive a notification, they must be enrolled in the course and enable the Announcement Created By You notification preference.</p>
Default	Do Not Send

Notification Trigger	Notification Preference	Course Activity Stream
Announcement Created by You	✓	✓
Replies to Announcement You Created	✓	✓

Grading

Description	<p>Grade changes in your course. Includes entering or changing a submission grade and unmuting an assignment.</p> <p>If you want to see your grades as part of these notifications, check the Include scores when alerting about grades checkbox. This checkbox also includes a warning that if your email is not an institution email, sensitive content will be sent outside of your institution. Your institution can enable or disable this option at any time. <i>If the Include scores checkbox is not visible in the notifications page, your institution has disabled this feature.</i></p>
User Restrictions	<p>Notification settings do not apply to only one course. If you are enrolled in multiple courses as a student, but you are also enrolled in a course as an instructor or equivalent role (TA, designer), please be aware that notifications from those courses will show student grades (as instructor roles do not have their own grades in such courses).</p>

Grade is Changed for an Assignment/Submission^	✓	✗
Assignment Grade is Unmuted	✓	✗

Invitation

Description	<p>Includes invitations to Web Conferences, Collaborations, Groups, Courses, Peer Reviews, and Peer Review reminders.</p> <p>Collaborations Invitations</p> <p>Email notifications for Collaborations relate directly to whether you have enabled Google Drive as a registered web service. When Collaboration notifications are turned on and Google Drive is registered, the connected email address appears in the body of the invitation email; if Google Drive is not registered, the user's default email will appear in the invitation body.</p> <p>When Collaboration notifications are turned off and Google Drive is registered, an email will still be sent to the connected account email address; if Google Drive is not registered, no email will be sent.</p>
Default	Right Away

User Restrictions	<p>Notifications apply to any user who is issued the invitation. However, users invited to a course in an observer role are not sent a course invitation unless they do not already have a Canvas account. Observer enrollments without a Canvas account must create an account before they can log in to the course.</p>
